1953-54 SEASON

Price List for the Trade Only

We solicit your orders for citrus and deciduous trees. Years of experience enable us to grow trees which we believe to be unexcelled.

Our Southern Grown trees are proven varieties and will give equal satisfaction in all localities. However, we believe retail nurserymen, particularly in Southern California and other warm sections, will find them superior to imported stock.

Our locally grown trees tend to leaf out later than imported trees, thus assuring the retailer of a longer selling season. This in turn reduces losses from replacements and unsold trees, and lessens customers' complaints.

The greatest care is exercised in the selection of our budwood and every precaution taken to produce and deliver varieties true to name.

The prices quoted are intended primarily for retail nurserymen who require many varieties for resale to customers desiring home orchards.

PLEASE ORDER IN MULTIPLES OF 5 & 10 OF EACH VARIETY

**3 FIGS TO THE PINT
THOMPSON FIG TREE**

GIVES YOU MORE FOR YOUR MONEY AND GARDEN SPACE.

HERE IS WHY:

1. ITS AMAZING SIZE—3 Figs Fill a Pint.
2. NO SUGAR NEEDED—It Is Nectar-Sweet.
3. BEARS 2 TO 4 HEAVY CROPS EVERY YEAR.
4. WILL BEAR ITS FIRST CROP 6 MONTHS AFTER PLANTING.
5. GROWS AS MUCH AS 20 FEET ACROSS IN 3 YEARS. Or may be cut back every year and kept low.
6. PERFECT FOR CANNING. The huge, dark purple fruit peels completely like a banana to a snowy white undercoat. No sugar required; its luscious, strawberry-like flesh makes a delightful attractive and appetizing pack.

Each tree carries a green tag giving detailed planting and cultural instructions.

3 sizes for your selection: 3-4 ft., \$2.50; 4-5 ft., \$3.00; 5-6 ft., \$3.50.

50% off to the trade

THERE'S A REASON

For the Enormous Popularity of the Thompson Fig today. The "3-to-a-Pint" Thompson Fig is California's fastest and biggest selling fig tree. It grows and produces equally well in the hot interior regions and the coastal areas. One of the amazing features is that it will grow and bear successfully right up against the ocean front in spite of wind, fog and cool summers.

The Thompson Fig is as nearly everbearing as a fig can be. From frostless areas we get reports of heavy crops of ripe figs as late as the first week in January!

You will never be satisfied with an ordinary fig after you have **tasted** the THOMPSON!

Not Genuine Without the Certified Green Tag.

Place your order now for immediate delivery.
